

Lesser Known Carvers

of the

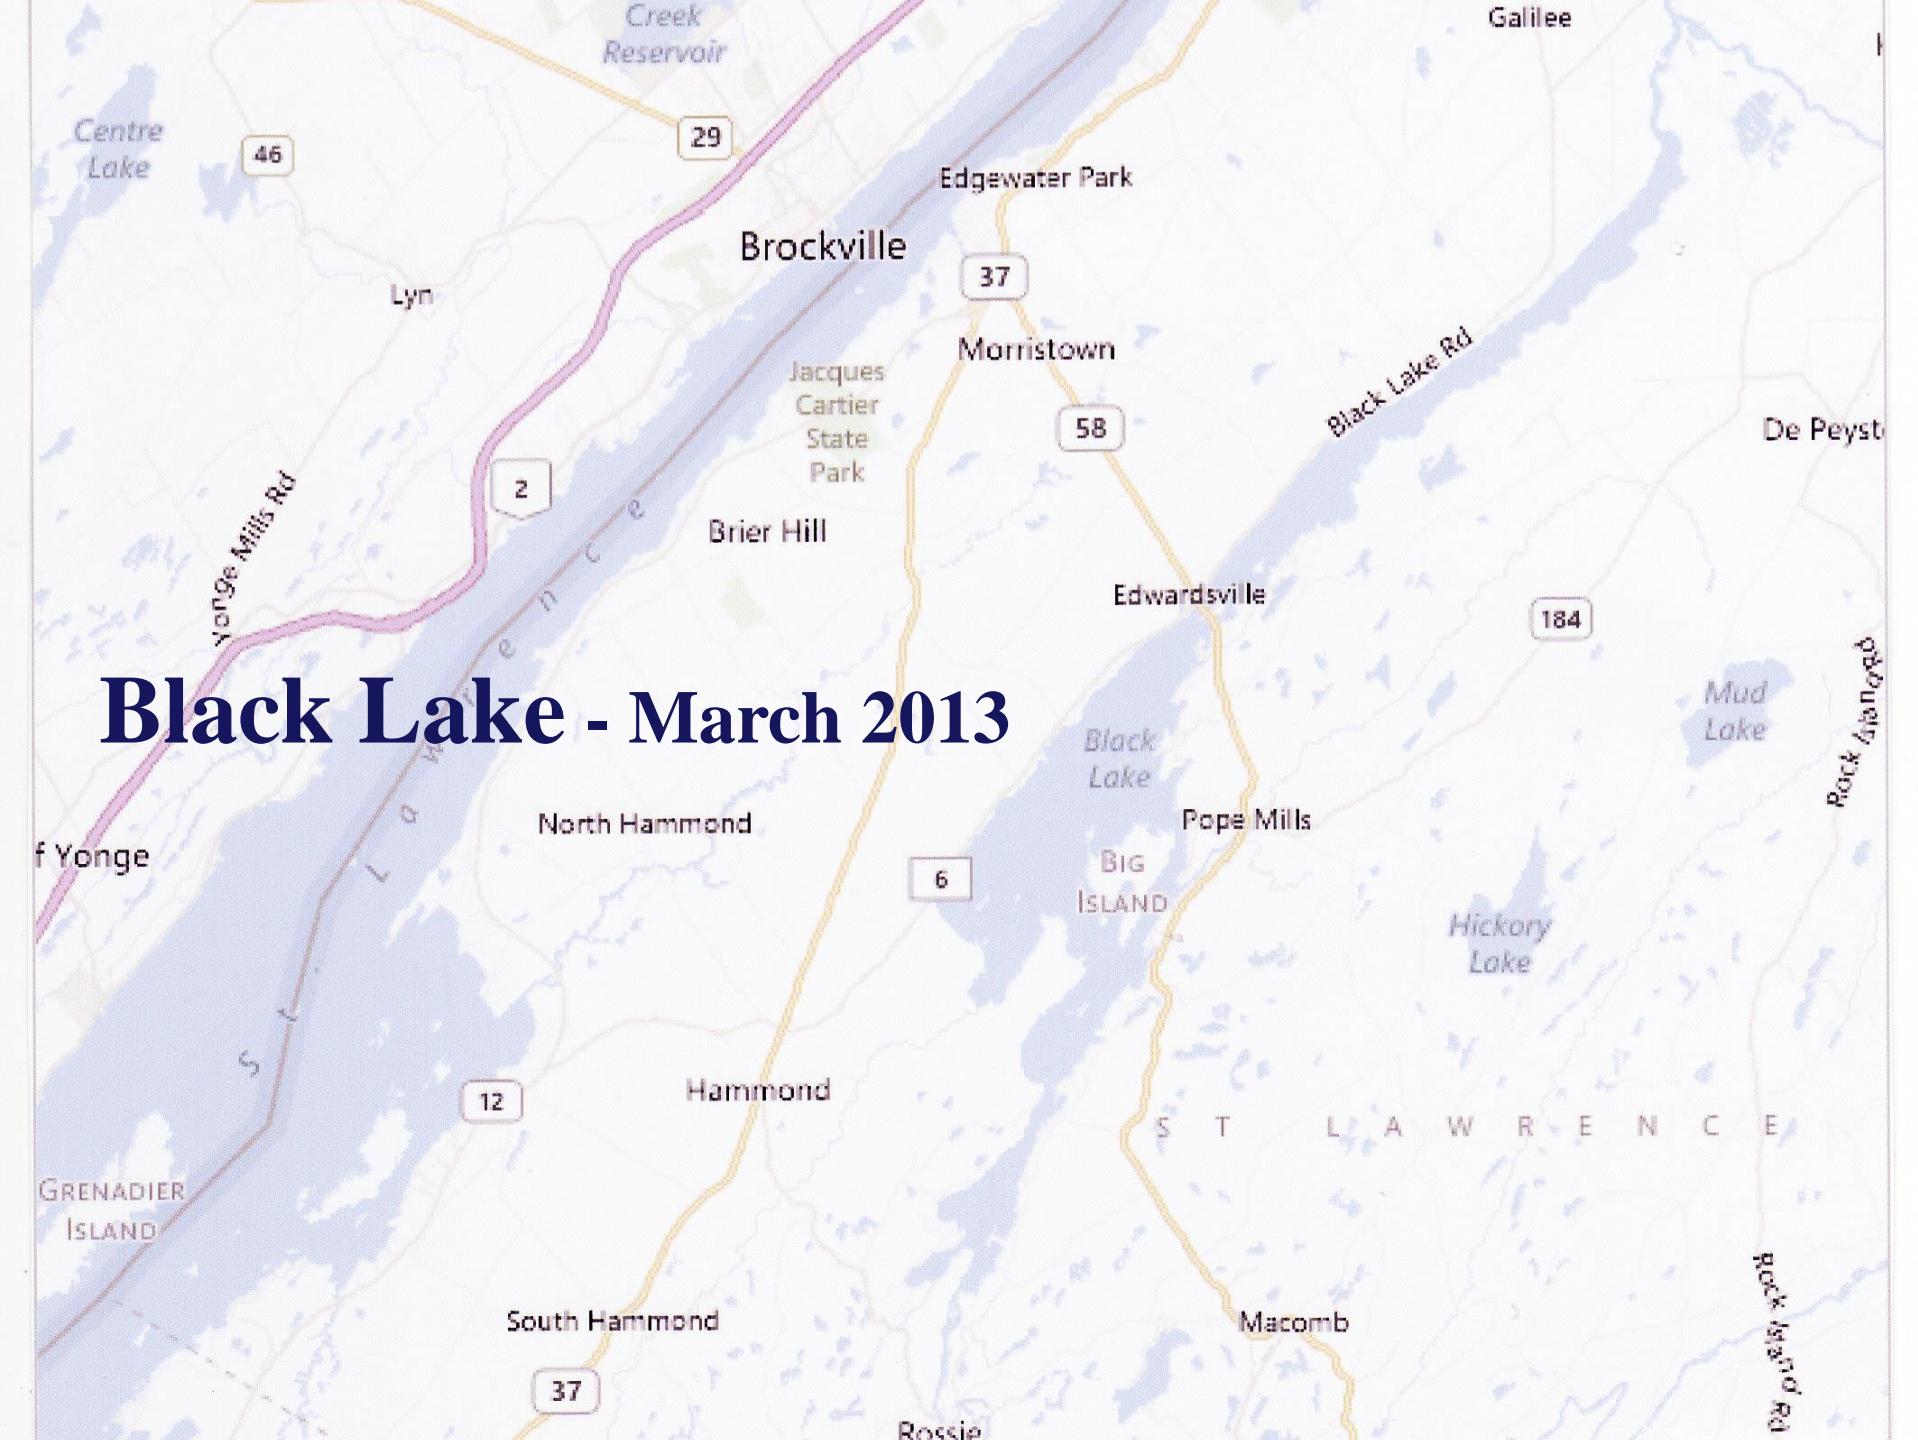

Thousand Islands

March 1, 2014

- Part 5 of Lesser Known carvers.
- “Lesser Known”: Carvers who are unknown or poorly known on a state-wide or national level.
- They carved some excellent decoys, and sometimes carved decoys that can be confused with others.
- Information on the lesser known carvers is scattered, and their carvings less numerous.

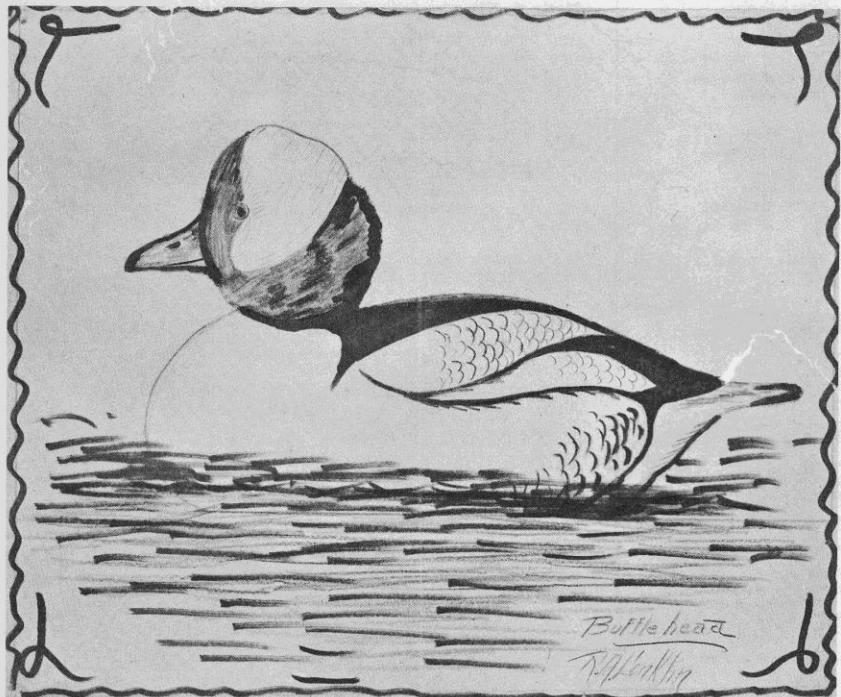

I would like to encourage people to speak-up during the meeting:

- if you have questions or need clarification
- have knowledge, insights, stories to add
- if you want to volunteer to work on something or someone, or have some information, please contact me after the presentation
